The **International Conference on New Technologies, Innovation and Information Systems (CINTISI'20)** is a congress that will be held on April 15-16, 2020 at the campus of transfer, skills and expertise of Mohammed First University - Oujda. **CINTISI'20** aims to bring all actors of all kinds, researchers, engineers, professionals, academics, institutional, industrial, and experts, to exchange information on the different themes proposed, and to share their culture of the field, as well as the confrontation of the methodologies employed is likely to favor collaborations and innovation. **CINTISI'20** aims to bring all national and international researchers by presenting their recent work, exchanging their scientific experiences and sharing knowledge gained in the field of new technologies and the various recent applications of information systems. This scientific meeting will also bring together specialists from different fields and student researchers or recent graduates and will give researchers the opportunity to present their recent work in the various themes of this congress.

TRACKS & TOPICS

The conference will have four tracks. Topics of interest are include (but are not limited to):

Track 1 : Technology Trends & Computing

Big Data, Social Network Analysis, Internet of Things & Smart Cities, Neuromorphic Systems, Mobile Applications, Digital Transformation, Software Engineering and Quality, Digital Transformation, High Performance Computing, Distributed and parallel systems, Mobile and embedded systems, Cloud Computing, Mobile Computing, Large-scale applications, Software testing and quality assurance..

Track 2 : Artificial Intelligence & Machine Vision

Artificial intelligence, Agents and Multi-agent Systems, Natural Language Processing, Data Mining, Ambient Intelligence, Sentiment Analysis, Robotics, Human Computer Interaction, Computer Vision, Image Processing, Geographic Information Systems, Video Analysis, Medical Diagnosis, Segmentation Techniques, Virtual Reality..

Track 3 : Communication & Security

Security, Ethics and Cybercrime, Networking, Wireless/ Mobile Communication, Connected Machines, Mobile Adhoc Networks, Communication Protocols, Mobile Apps, Privacy, Surveillance, Biometrics, Internet Security, Electronic Data Interchange (EDI), Web Services and Performance, Cryptocurrencies, Cryptography..

Track 4 : Security, Prevac and Data Forensic

Virtual Learning Environments, Web-based Learning, Delivery Systems and Environments, System Modeling Language, Bioinformatics, E-Learning, Smart technologies, E-marketing, E-Commerce, E-Tourism, Systems Engineering, Human Machine Interface, Multimedia systems and applications, Database systems, Software process and life cycle..
